

This thank-you to Snow's Wood Shop is long overdue, but not in any way a reflection on any dissatisfaction on my part. Just got caught up in the holiday season and January regrouping. After many hours consulting with a "big box" store planning a kitchen remodel, I walked away not entirely happy with the design or price quotes. Thankfully, I listened to several of your past clients and sought out advice from your company. Might I add, one of the best decisions I ever made. You kindly accepted every picture that I shared, listened to my strong opinions, varied ideas and turned my kitchen remodel into the kitchen of my dreams. I am sincerely pleased with every aspect of the cabinets, quality/style/color, storage features, on time completion and installation, your quick attention to minor issues which occurred, the professionalism of all involved (Curt, Tom, Jamie and Mike) and the overall cost (custom, but a much lower quote than the "big box store"). As we continue to remodel other rooms, i.e. laundry, bathrooms, you WILL be our cabinet maker. You are cabinets makers extraordinaire!!!! I confidently would recommend your company to anyone. Other than having the backsplash finished, the kitchen is completed. Enjoy, the pictures! Thank you also for the referral of Harrison Floors. Amazingly, the kitchen floor looks better than the day we installed them 24 years ago.
