

What can we say but Thank you so very much.

Kurt pointed out some very important changes in our design when he came to the house

We were treated just great when we stopped into the Showroom. Vickie went out of her way to get us the sample we needed and helped us with our cabinet hardware.

Everything was ready exactly when you said it would be - we weren't but you didn't get ^{upset} ~~upset~~ with us.

The installers were fantastic and I now have a kitchen fit for a queen.

We get a lot of "Oh's" + "Ah's" when family & friends walk in
Thank you,
Walt and Mary
